DESCRIPTION/OPTIONS: Here is a great running duramax diesel 2500HD with the Allison transmission. It's 4x4 and includes a working dump, plow gear and two optima batteries. The rocker panels cab corners and frame are solid, and it goes down the road super smooth on new general grabber tires. This would be a great work rig for someone starting out landscaping or needing another work vehicle. Interior isn't the best but the a/c blows ice cold and it drives great.
